

BOARD MEMBER/PARTNER ANNOUNCEMENT PRESS RELEASE

FOR IMMEDIATE RELEASE (23 August 2022)

GIM Robotics Announces the Appointment of a New Board Member and Partner

New board member brings a deep understanding of commercial and corporate strategies to the table.

Espoo, Finland, August 23, 2022. GIM Robotics announced today officially the appointment of a new member to the board. This brings the number of board members to six. New board member **Henrik Dahl** is an entrepreneurial business leader with 20 years of experience working in start-up & growth environments. Acting as GIM Robotics' Board advisor since December 2021, Dahl became Partner and Board Member in summer 2022.

"Dahl will bring great perspective," said board chairman Dr. Jussi Suomela. "GIM Robotics is ready for some big moves and global software licensing sales, and Henrik is the expert in that."

Dahl was a board member and interim CEO for StormGeo, a leading weather analytics company that was recently sold to Alfa Laval. He also co-founded and led Eniram, a pioneer in maritime data and analytics which was sold to Wärtsilä in 2016.

He has ample experience in all aspects of building startups to scale, including sales expansion, fundraising, and M&A activities. Currently, Henrik serves as chairman of the board, board member and advisor for several companies in the marine and technology space including Seaber, Saxdor Yachts, and Awake.ai.

He is also the co-founder of Blue Alliance, a platform that helps innovative maritime companies reach global markets. "I'm really excited to help GIM Robotics reach the next level, " said Dahl. "I see so much potential here."

About GIM Robotics

GIM Robotics is a producer of full stack automation software working in all-weather conditions with centimeter-level positioning. proprietary Company's SW stack turns mobile working machines into field & service robots and speeds-up product development, opens new markets and saves resources.
